**30 June 2020**

Prime Holding JSC  
Sofia/Plovdiv Bulgaria

**Dear Prime Holding JSC HR,**

**Re: Angular Software Engineer Intern (Remote) position**

I am writing to apply for the position of **Angular Software Engineer Intern** at Prime Holding JSC , which was advertised online at Plovdiv University FMI website.

Is it better to follow your dream or to investigate the job market when choosing a profession?

According to me, it's better to be a dream follower because when you follow your dreams you can find the best place, the best work for you. When you are following your dreams you can do the best things you can, the best way you can.

If you have the chance to address only 1 question to the CEO, what would it be? Explain why.

I will ask the CEO what he thinks about Open-Source technologies because most companies go this way already Open-Source development makes applications safer more security-focused and reliable.

Describe a time where you made a mistake, and how you handled it and what have you learned from it.

When I made a mistake I think about how I did it and why I did it. When I did a mistake I can help other people who did this mistake.

I would enjoy having the opportunity to talk with you more about this position, and how I could use my skills to benefit your organisation.

Thank you for considering my application. I look forward to hearing from you.

**Yours sincerely,**

**Veselin Stanchev**
